PROFESSIONAL SUMMARY

Mathematics and Data Science double major at Oregon State University with a foundation in mathematical reasoning, introductory Java programming, and spreadsheet-based data organization. Strong analytical thinking, communication, and problem-solving skills developed through STEM leadership, customer service, and collegiate athletics. Eager to apply quantitative skills and continue developing technical expertise in data science.

EDUCATION

Oregon State University — Corvallis, OR Expected Graduation: June 2029
Bachelor of Science, Double Major in Mathematics and Data Science

Graduated June 2026

4.0 Unweighted/ 4.62 Weighted GPA
Academic Honors: National Merit Commended Student, AP Scholar with Distinction

RELEVANT COURSEWORK

In Progress: Vector Calculus II (MTH 255), Foundations of Mathematics (MTH 310)

Completed: Linear Algebra — Clark College, AP Computer Science A and AP Statistics

RELEVANT EXPERIENCE

STEM Academy Club, Sept. 2022 – June 2026
Materials Manager

- Maintained spreadsheets tracking material requested from 12 elementary school groups to organize supply information in a centralized location
- Communicated with group leaders and identified purchasing needs by reviewing requested materials and determining which supplies were unavailable
- Allocated volunteer responsibilities, assigning experiment-planning and student-support tasks to match individual commitment and availability

Sonic Drive-In, Sept. 2022 – Dec. 2023
Carhop

- Collaborated with crew members and shift leaders to coordinate food preparation, order handling, and delivery during in a fast-paced work environment
- Prioritized incoming headset orders, stall orders, and car deliveries during rush periods to manager competing demands efficiently
- Resolved customer complaints by listening to concerns and creating effective solutions to improve customer satisfaction
- Operated a headset communication system to receive and communicate customer orders accurately to the front and back-of-house teams

SKILLS

- Programming: Introductory Java
- Data Management: Spreadsheet creation, data organization, information comparison
- Able to work effectively and communicate in a fast-paced environment
- Critical thinking, teamwork, time management, and customer service
